

"We live in a rural community where people dump animals thinking they will find some nice farm to live on...Zoey is an example...there she was at the end of the street emaciated, covered in fleas and ticks, and worst of all with almost no hair due to mange...Animal Birth Control Clinic assisted me by providing **low cost shots and sterilization**. Thanks to their prices, I was able to get her mange treated and today Zoey is a happy playful and most important, HEALTHY 2 year old member of our family! THANK YOU to ABC."

From **Robin Bortolus** and **Zoey**

"I started using the ABC Clinic when I was a student at Baylor. Money was short... Thankfully, I did not have to sacrifice the health of my dog. Because of the ABC Clinic, I've been able to provide him with yearly vaccines, flea protection, and year-round heart worm prevention...I will continue to support the ABC Clinic because of the services they offered me when I needed it. It is also wonderful to know that every penny spent helps support **their mission** to have all animals spayed and neutered."

From **Matthew Richard** and **Bozque**

Animal Birth Control Clinic  
3238 Clay Avenue  
Waco, TX 76711

# Help Us Help Others

By donating to ABC Clinic, we can provide affordable spay/neuter services to pets owned by low-income families and the elderly. Besides providing a wonderful service, your donations to ABC Clinic (a 501(c)(3) charitable organization) are tax-deductible.

To make a donation you can call our office line or mail us a check.

If you would like to volunteer at our clinic for a day, call or email us to discuss any open positions.

# Save the Date

Grab your party hat and come join us for our yearly No Balls Ball. All tickets purchased receive an entry for fabulous door prizes and the money collected from ticket sales goes toward providing low-cost spay/neuter services.
